Title:

Comments: I am opposed using chainsaws to clear trails in Wilderness. Dead and dying trees are habitat and nutrients and should be left alone in Wilderness.

The Forest Service should use crosscut saws instead of chainsaws, and only as necessary to clear trails of fallen trees that must be removed.

Wilderness visitors should be allowed to experience nature on its own terms, including any risks that entails.

The Forest Service needs to exclude all Wilderness areas from this project, including any encroachment from activity on wilderness boundaries.
