First name: Larry

Last name: Hanson

Organization: Forest Unlimited

Title: Board President

Comments: Since time memorial wilderness has had its natural occurrences like tree fallings due to wildfire or other causes. There are other natural occurrences like falling off cliffs, getting lost, and wild animal attacks.

This is wilderness and what people accept and want when they enter that domain. If they need a reminder, a sign at trailheads would suffice. More damage will occur than not by chainsawing trees that may or may not fall in the near future.
