Comments: Please do not allow humans to disrupt the natural flow of nature and wilderness. We must leave them alone and allow other living things to grow and flourish. Why humans want to play "God" and screw everything natural up?? Please do not touch or destroy any part of this natural area. It's is bound to have longterm damaging and negative effects. There are just some things man must leave alone and this is one of them! Nature does a much better job than any human has.
