First name: Debbie

Last name: Wall

Organization:

Title:

Comments: Our poor, poor planet is much too close to her tipping point for us to be enacting policies that will only push her over the edge. We need to preserve whatever precious little pristine wilderness remaining and re-wild much of that stolen from the animal nations. The use of chainsaws to clear trails does not factor into this. If any fallen trees do need to be removed, this should be accomplished via the use of cross saws. This applies to all wilderness areas.
