Comments:

I oppose using chainsaws to clear trails in Wilderness, leave the trees alone.

Dead and dying trees should be left alone in Wilderness, they serve a purpose to the ecosystem.

The Forest Service should use crosscut saws, not chainsaws, to clear trails of only the fallen trees that must be removed, no need to use chainsaws.

Wilderness visitors should be allowed to experience nature on its own terms, including any risks that entails, we, the visitors understand nature and its dangers. Nature is wild and should be left alone.

The Forest Service needs to exclude all Wilderness areas from this project, including any encroachment from activity on wilderness boundaries.
