Comments: I just wanted to pop in here and ask that we leave as many of our fire roads open as possible.

There's a lot of new people new people using these roads with a lot of veteran people. There's a lot of out of state people that don't respect our land properly but that is not the fault those of us who live here and love it it.

We are here to help are here to help do anything that you request of us to help keep these roads open.
