Comments: I write to protest the proposed expansion of Lutsen Mountain Ski Area. This is a bad idea.

It's bad policy to allow the use of public land for expansion of private enterprise.

It's also bad to allow the destruction of habitat and subsequent soil erosion and drainage right into Lake Superior.

The maple trees on that ridge are visible from several vantage points in the area.

Once they get scraped off to expand Lutsen's ski business, the whole area is ruined.

I, for one, do not want to climb Eagle Mountain and look at a ski area.

This expansion is not in the best interest of the people of Minnesota.

Please don't let it happen.
