Comments: To whom it may concern. I am writing in support of increasing or maintaining motor vehicle use in the area highlighted on the map. With so many places being closed down from logging roads and previous open roads, this would be a welcomed change to keep some routes open. These are nice destination areas, and would also promote additional incomes to businesses in Yellowpine via store, gas, and restaurants. We frequent this area every summer, and have ridden to a few of the available places.

Thank you for your time and consideration
