Title:

Comments: Thank you for the opportunity to submit my comments. I support the comments of David Ochs and the Crested Butte Mountain Bike Association. I believe recreation creates authentic connections to the environment and proper planning and collaboration is key for creating environmentally sustainable recreation opportunities. I also support the protection of wildlife habitat and migration corridors, and I would like to see the Special Management Areas identified by the Gunnison Public Lands Initiative incorporated in the final GMUG Forest Plan. I believe we need to end all commercial mining and other resource extraction activities in the GMUG. Motorized access should be restricted to well established roads with limitations strictly enforced. Thank you, Jeff
