Title:

Comments: I have reviewed the GMUG Forest Plan draft revisions. There are numerous aspects of the plan that I have comments on. My comments are best summarized and articulated through the formal comments being provided by the Crested Butte Mountain Bike Association (CBMBA). CBMBA provided 9 comments on topics ranging from Trails and Management Areas, Gunnison Public Lands Initiative, Shared Stewardship/Trail Building/Maintenance, Technology, Trail Route/Density Standards, Recreation, and Recreation Opportunity Spectrum. I am fully supportive of the language and scope of the CBMBA comments and the CBMBA comments best represent my desires for the future management of the GMUG forest.
