Title:

Comments: I'm a 76 year Nam vet. Over the years my wife and I have seen a major deterioration in our forest experiences due to ATV traffic and crowded semi-primitive areas. In addition, fisherman and hunters from outside Colorado commonly treat our forests and fishing areas as dumping ground that they'll never revisit.....like transient passer's by. Further, old mining areas and areas of historic value have become machines for tourist based business that have all but destroyed the serenity of these historic sites. On a positive note, coal mining is all but history.....that statement is from a USGS and CGS coal geologist and sedimentologist. I have no idea how to deal w the above. I'm just an old guy that spent a great deal of his life enjoying what's rapidly disappearing.
