Hello, this is regarding the proposed motor vehicle restrictions for Forest Service road 423, Sweetwater, and road 424 Elk Fork. I hope the final decision would be to keep these trails/roads open to motorized vehicle use during hunting seasons. I understand the first concern is the Grizzly bear population. The bears are not going to be affected. I have hunted in these areas for 23 years, and the bear population has grown significantly. If the final decision is to close these roads/trails, I hope there would be consideration to allow verified disabled people the use of a motorized vehicle to access these roads for hunting.

thank you

Dana Simon
