I believe the primary use of the national forests should be for quiet recreation such as hunting, fishing, camping, hiking, etc. Extractive industries and motor sports should be allowed in the rare instances they or either will not interfere with quiet recreation. We are losing "the least best places." Please retard rather than accelerate this process.

These are federal lands, owned by ALL the citizens of the United States. They are mine, even though i have not been on the Shoshone for years.

Robert Handelsman
