Last name: Gardner

Organization:

Title:

Comments: I rode Adventure Touring motorcycles and hope to see any future plans for the area under study make allowance for responsible use by Adventure tour riders. I have ridden the "COBDR" route developed by Backcountry Discovery Routes which goes through the area under study. It was a fantastic way to see beautiful parts of Colorado and I hope to be able to ride it again in the future. The Backcountry Discovery Route organization makes a thorough and compelling case for the appeal to continue allowing the use of Adventure Tour motorcycles in the area. Their statement, which I fully endorse, is available here:
