Comments: To Whom it may concern,

We own the property Quatorlake #2 that surrounds Crater Lake. We access our property using the Red Metals Mine Road and we currently have a special use permit for this access. We are are opposed to the opening of this road for public use as it would result in increased traffic to out private property, which is the primary destination for people using Red Metals Mine Road. Trash problems and unauthorized camping will be a result of Increased traffic. It is also our opinion that the first service should not open roads to the public that would primarily result in the road users trespassing on private property .

We are firmly opposed to any consideration of opening Red Metals Mine Road to public vehicle use, however we are fine with foot traffic use of this road.

Sincerely

Greg and Diana Vita
