Comments: Hello,

I support Alternative C. My family and I enjoy motorcycle riding with loop access. Alternative C protects the majority of trails that currently in place. Please do not close down trails or limit recreational opportunities. Once trails are closed higher number of people are limited to less trails. This is not a winning strategy. I'm a firm believer of land of many uses. I think we should build new mountain bike trails and non-motorized trails but also keep the existing trails that have been used for years to the current user groups that help maintain them while also provided family recreation. Thanks
