Comments: Hello, as a resident and recreationist in the GMUG , I am a hiker, camper, mountain biker and a dirtbiker . I support alternative c, Along with all the recommendations coming from core, Colorado off-road enterprises, and TPA, the trails preservation alliance. Off-road motorcycles are not only popular now, but are increasing in popularity every year. Yet it seems everywhere that available trails and trail systems are declining or being taken away each year. I know that I will continue to have plenty of opportunities for hiking and camping, but I am most concerned with Preserving my motorized access , Especially single track trails, in the Grand Mesa Uncompahgre Gunnison national Forest. Thank you for your consideration.
