Comments: Thank you for the hard work you've done on this travel management plan. We spend a lot of time recreating in the general area with both mountain bikes and off road motorcycles. We support Version C of the plan, as it allows for the most continued variety that is offered right now. We would also like to see a few additions to alternative C: We like the verbiage from Alternative B that protects motorized access to the Continental Divide Trail and areas around the trail. We would also prefer to see The addition of specific protection to any route that has already been approved as a motorized route in site-specific Travel Management by the FS. In particular any of these routes that have been proposed to be encompassed by a Primitive or Semi Primitive Non-Motorized ROS category. thank you for your time.
