Title:

Comments: My name is Deb Dinin, and I'm writing to share my opinions about land management. I enjoy the areas of the GMUG every summer for camping and dirt biking. These are great areas that I hope stay open to the public for use both motorized and nonmotorized, but not to close current motorized areas. I especially enjoy the motorized single-track loops in these areas. I support Alternative C since it will protect the current and future use of these areas for the sports I enjoy. Thank you for listening to an avid outdoor enthusiast in the GMUG National Forest areas.
