Comments: I'm writing in to express my opposition to draft option D in the updated management plan. It is my understanding that option D would limit motorized access in the winter near the town of crested butte. I currently use snowmobiles to access terrain that would otherwise be unreachable in a day during the winter months. It is my opinion that the areas that are currently multi use near crested butte should remain as such to allow for a larger user group to enjoy the area.

Ned
