Comments: NO TO ALTERNATIVE D. I have lived I CB for several years and I am a huge supporter of maintenance to our land and forests, but restricting motorized access will wreck our skiing accessibility, cause an overload of concentration in certain areas, cause erosion from heavy use, and will be dangerous.

These mountains surrounding us are best exploring by recreational vehicle and it is IMPORTANT to let the PUBLIC land be used and loved by the PUBLIC. Putting restrictions like this in place is irresponsible and clearly one sided.

PROTECT OUR LAND, but protect our right to use it!!! Don't let the locals down.
