Comments: NOTHING on earth is as important as water.  Please, please manage forests in a way that protects and conserves our water.  In particular, I support Wild & Scenic eligibility for all the river, creek, and stream segments described at https://ourcowaters.org/gmug/  Nothing is as important to everyone's life as having water--obviously.  Now, with human-caused climate change and massive drought, it is imperative that we do EVERYTHING possible to protect and conserve water.  For us, and for wildlife--not cattle and sheep.  Thank you for your consideration.
