Last name: Brown

Organization:

Title:

Comments: Please protect our waterways and our wildlife here on the western slope of Colorado. Do not allow polluters and those who wish to reap financial benefits from our lands and waterways to use these natural resources to their advantage. Our waters are precious and must be protected. I support Wild & Scenic eligibility for all the river, creek, and stream segments described at <https://ourcowaters.org/gmug/> These waters provide rare habitat for many important species. Thank you for your consideration. Sincerely, Connie Brown
