Title:

Comments: My son is a hydrologic engineer and an avid recreational user of our state's rivers. Through his work on the Colorado River Basin we have become much more aware of the need to keep rivers free-flowing. Our western water crisis is of great concern to me. Our rivers are some of the most important assets of the Grand Mesa Uncompahgre and Gunnison National Forest. All free-flowing rivers with outstandingly remarkable values must be found as eligible for wild and scenic protections. In particular, I support Wild & Scenic eligibility for all the river, creek, and stream segments described at <https://ourcowaters.org/gmug/> These waters feature unique, outstanding, and popular outdoor recreation opportunities that are critical to our Colorado way of life. Thank you for your consideration. Sincerely, Leigh Felletter
