Comments: Our rivers are some of the most important assets on the Grand Mesa Uncompahgre and Gunnison National Forest. All free-flowing rivers with outstandingly remarkable values must be found as eligible for wild and scenic protections. In particular, I support Wild & Scenic eligibility for all the river, creek, and stream segments described at <https://ourcowaters.org/gmug/> These waters are critical climate change refuges that we must protect in the face of a hotter, drier future, and they are also vital scientific research areas. I am a full blooded Navajo woman and it's apart of my culture to protect the water and lands, please hear me when I say- My family still lives on the reservation in Northern Arizona near the Grand Canyon and Lake Powell. It scares me that with the water levels so low here, what they are experiencing there is even lower. So please get rid of the invasive tamarisk, protect our water cause it's my family's too!! Thank you for your consideration.
