Title:

Comments: Our rivers are some of the most important assets on the Grand Mesa Uncompahgre and Gunnison National Forest. All free-flowing rivers with outstandingly remarkable values must be found as eligible for wild and scenic protections. In particular, I support Wild & Scenic eligibility for all the river, creek, and stream segments described at <https://ourcowaters.org/gmug/>. These waters are critical climate change refuges that we must protect in the face of a hotter, drier future, and they are also vital scientific research areas. Water is the most important/ critical natural resource on our planet. We MUST protect our water. Thank you for your consideration. Marie Katen
