Comments: Our rivers are some of the most important assets on the Grand Mesa Uncompahgre and Gunnison National Forest. All free-flowing rivers with outstandingly remarkable values must be found as eligible for wild and scenic protections. In particular, I support Wild & Scenic eligibility for all the river, creek, and stream segments described at <https://ourcowaters.org/gmug/>. These waters feature gorgeous scenery and without a doubt qualify as unique cultural and historic resources. They also are essential to our wildlife and the health of the forests within which they run. They are more than just resources for human consumption and utilization. They are the lifeblood of the region and deserve to be minimally impacted by any kind of shortsightedness or profit motivation. Thank you for your consideration.
