Comments: To my family and I, streams and rivers are some of the most important assets on the Grand Mesa Uncompahgre and Gunnison National Forest. Wild and Scenic protections should be afforded to any free-flowing water courses with special values. In particular, we support Wild & Scenic eligibility for all the river, creek, and stream segments described at <https://ourcowaters.org/gmug/> During these times of water scarcity, it is especially important to protect any water ways that are critical to wildlife, and to those which provide recreational opportunities for Coloradans. Thank you for your consideration.
