Title:

Comments: Our rivers are some of the most important assets on the Grand Mesa Uncompahgre and Gunnison National Forest. All free-flowing rivers with outstandingly remarkable values must be found as eligible for wild and scenic protections. In particular, I support Wild & Scenic eligibility for all the river, creek, and stream segments described at <https://ourcowaters.org/gmug/> These waters feature unique, outstanding, and popular outdoor recreation opportunities that are critical to our Colorado way of life. The Colorado and Gunnison rivers that converge here in Grand Junction are part of our historic and future well being. Without protection and attention our lives will suffer. Thank you for your consideration.
