Comments: Our rivers are some of the most important assets on the Grand Mesa Uncompahgre and Gunnison National Forest. All free-flowing rivers with outstandingly remarkable values must be found as eligible for wild and scenic protections. In particular, I support Wild & Scenic eligibility for all the river, creek, and stream segments described at <https://ourcowaters.org/gmug/>. These waters feature gorgeous scenery and without a doubt qualify as unique cultural and historic resources. I also support severely limiting and reducing oil and gas extraction and associated activities as well as any expansion of motorized recreation on lands heavily used by elk, deer, and other big game. Destructive human activity that causes undue stress on our precious big game resources is completely unacceptable in my opinion. Thank you for your consideration.
