First name: Richard

Last name: Silverman

Organization:

Title:

Comments: Clean water is simply the first measure of any healthy ecosystem, and the society that is mandated to protect it. Please accept this note as a broad statement of support to extend wild and scenic designation to all potential inclusions in the GMUG. This is no longer simply an appeal to maintain an aesthetic, but a cry for the survival of all that lives upon this now shaky planet. Richard Silverman Box 954 Telluride, CO 81435
