Comments: Our rivers are some of the most important assets on the Grand Mesa Uncompahgre and Gunnison National Forest. All free-flowing rivers with outstandingly remarkable values must be found as eligible for wild and scenic protections. In particular, I support Wild & Scenic eligibility for all the river, creek, and stream segments described at <https://ourcowaters.org/gmug/> These waters provide rare habitat for many important species. Our valley depends on our rivers for its future, both agriculture and people. We need to protect them with every ounce of effort that we can find. Keep the water here and let the front range fend for itself. The drought has done enough to slow things down, we don't need anything else threatening our access to water. Thank you for your consideration.
