Title:

Comments: I am writing to oppose the proposed expansion in either alternative. The project would necessarily result in the removal of countless trees from the Superior National Forest. At a time when many decry the clearing of forest in the Amazon Basin for creation of soybean farming acreage, how can we reasonably allow this to occur for an expansion of sport skiing that already exists at this location. The value of trees has not been adequately evaluated in the information that I have reviewed. Climate change will be furthered by tree removal and increased motor vehicle traffic.
