Comments: As an architect, I appreciate both Alternative 2 and 3. As a skier, who has skied at Lutsen with my family a number of times, I also appreciate Alternate 2 and 3. Alternate 1 is not planning for future enjoyment, so I do not support that alternative.

My preference is Alternate 3. Although Moose Mountain has some issues, I prefer leaving a larger portion of the back of the mountain untouched. I see that it is a bit less accommodating, but the environment at Lutsen Mountain is also why we ski there. The views, and surrounding wilderness is essential, and as those decrease, we are less likely to drive from out of state to visit this ski hill.

Therefore, I cast my vote for Alternate 3. Thank you for the thoughtful consideration of all of these schemes, and the future development of Lutsen Ski Hill.
