Comments: My family and I have been happy customers of yours for years. The Lutsen area has provided us with incredible memories and many more to come. You're turning the corner with your new plan to compete with the bigger players in the outdoor sports game. The Alt 2 & 3 plans provide more incentive for people like my family to visit your beautiful area rather than fly to Utah or Colorado. These plans are robust and well thought out. We are blessed to have folks like yourselves willing to take a big risk.

I wish you all the success in the world!
