Comments: I support the proposed over the snow trail improvements. Recreational snow machine access on Prince of Wales Island creates winter recreation for a large and growing number of families in our area. This creates economy support to local businesses through machine sales and parts and service as well as well as supporting local convenience stores selling apparel and PPE. This opportunity creates a drug and alcohol free winter activity for local residents and gets children outside and active. Improved snowmachins access also increas areas for local residents to access areas for subsistence.
