First name: Dr Rin

Last name: Porter

Organization: Defend Our Parks LLC

Title: Communications Director

Comments: Defend Our Parks LLC opposes any and all use of public lands for the grazing of domestic animals, including cattle and sheep. We believe that public lands should be inhabited solely by indigenous wildlife such as coyotes, wolves, elk, deer, beaver, otter, mink, lynx, cougar, bear, prairie dog, native fish species, etc., as well as wild horses and burros. We oppose the placement of water troughs and the disruption and damage the troughs and the machinery required to place them would cause to fragile public lands and waterways.

Thank you for the opportunity to comment on this issue.
