Hello,

Please do everything in your power to halt the expansion project for Lutsen Mountains. In an era of unpredictable climate change it makes no sense to expand an already unpredictable business model, especially one run by a business that "is not required to disclose its private financial information to the public in order to prove its claim that a failure to expand would be a detriment to its profitability," as it says in the recent MinnPost article, which is quoted below. Additionally, the lands that the proposed extension will disturb are some of the most diverse in the state and need to be protected! Please help us preserve what we have left in beautiful northern Minnesota.

Kind Regards and thank you,

Stephanie Pearson
