I am a concerned Lutsen, Minnesota property owner. Look at the water that the ski area already takes from Lake Superior and the chemicals the ski area now uses in their snow making. These chemicals are banned in German & Austrian ski slopes for health reasons. And they are wishing for more use of our National Forest? How could the Forest Service even consider issuing a special use Permit that would allow Lutsen Mountains to construct additional space for their improvements. By all means, this is ridiculous. Also, look at the added work that will be put forth by Arrowhead Electric Association should this all come to fruition. We, the people will be subject to pay for this additional expense one way or another. Yes, I am waiting for the TRUTH from the Forest Supervisor's decision in regard to this matter. The Final EIS had better be based on the PUBLIC input. You will see that there should be NO GRANT issued for this special use permit. Shirley Lindgren, 239 North Caps Trail, P.O. Box 56, Lutsen, MN 55612
