The govt should not be allowing a private single client service to operate for their profit from public lands.....i enjoy wilderness type recreation without destroying forest and it would be taken out of the forest harvest restoration also.....this is so wrong.....

I,m guessing the minds are already made up as per usual with these type assessments.....keep it up, we'll take the act away and you'll have nothing.....my comment is a strong NO NO NO, do not let lutsen ruin eagle mtn for a few skiiers and if they need that land, tell them to move west where global warming will not interfere in 5 yrs.....look at the trends.....a waste of effort.

Bradley d Ehlers, Rochester minn.
