Comments: I would like to express my strong desire for the USFS to allow a non-motorized trail through National Forrest land on the East side of Payette Lake. Since the routing through Idaho Endowment Lands has been found too difficult the proposed route from the Crestline Trailhead to the road on state lands to the North would be mostly on the existing Fall Creek loop trail (road) with minimal new new trail construction further to the north. This would be a great addition to the mountain bike and hiking trails around the lake. Please allow this trail on our land of many uses!
