Comments: I am in favor of this proposed trail.

As a McCall resident and mountain biker I am excited by the prospect of a new trail to ride, and getting closer to the goal of a trail all the way around the lake.

As recreational needs grow we are in need of more space to recreate and spread folks out. This trail will help fulfill the growing need for recreational opportunities.

this trail will not only serve the maintain hiking community but all non motorized trail users.

because of the nature of this trails funding through grants and donations. . This will be a great opportunity to gather volunteer groups and agencies creating a work-togetherness and promote partnership and positivity between Angie cues, volunteer groups, and the recreation community.
