Comments: I am writing this letter in strong support of the second phase of the Payette Lake Trail. The first phase on the west side of the lake has been a major addition to the near town trail network. The addition of this east side trail will only enhance mountain biking opportunities in the McCall area. It will also attract out of town riders that will continue to make a significant economic contribution to the local economy.

The terrain on the east side that this trail will pass through is truly spectacular and will make for a unique and signature riding experience. With more and more mountain bikers coming to the area as well as a growing local group we need more trails to ride that are near town.

I strongly urge the Payette Forest officials to give this proposal the green light.
