Comments: I am writing in support of the proposed trail work on the east side of Payette Lake. Utilizing and connecting the existing trails to get closer to the goal of the around-the-lake route is sustainable and smart. The trail system will be a huge benefit to McCall locals and visitors and will be a tourist draw once it is completed. Utilizing these existing trails and parking areas will help to preserve our natural environment while providing a unique non-motorized trail experience.

Thank you!
