Title:

Comments: I approve prescribed burns. Has been successful in other States. Bend Oregon citizens voted to do this in Spring and Fall so that they don't have the catastrophic fires like N. California. Need to make sure that these fires are well monitored so that they don't erupt and cause damage to homes. Also , Forest Service needs to guarantee full replacement costs of buildings and land if they do. It's a new world and we need to think ahead to avoid such terrible loss from fire and impact to respiratory health.
