Comments: Residents in the Carson River Valley have suffered enough from smoke as a result of fires last year. Please take some common sense steps to minimize smoke damage to our lungs. First **DO NOT BURN WHEN THERE IS AN INVERSION IN THE VALLEY**. The CA Air Resources Board tells you when it is ok to burn without poisoning your neighbors. NV can easily do the same. Second **EMPLOY CHIPPING AS MUCH AS POSSIBLE**. When you cant burn you can chip. CA is doing this on a massive scale in the Dixie fire region. NV can do the same.

In general NV has the ability to do a better job in all of these areas than CA and that is why I live here. **PLEASE LIVE UP TO THIS EXPECTATION BY TAKING THE STEPS BOLDED ABOVE**.

THANKS
