First name: Sandi
Last name: Stephenson
Organization: Mount Rogers Trail Coalition
Title:
Comments: We think this a very good project because everyone deserves access to the internet and all the information that is available through it. The only request is for the horse groups be notified if the installation is being done on or crossing trails. Also that the installers are educated on how their presents on a trail can startle a horse. If the person would just speak to the rider this lets the horse know they are a person and not a monster ready to kill them. Thank You Sandi Stephenson Mount Rogers Trail Coalition
