Comments: I would like to comment of the improvements to the Ward Creek System. The Ward Creek trail system is heavily used by locals. The Ward Lake trail needs maintenance as it is used by people with limited mobility. The Ward Creek Trail and Salvage Road are in fairly good condition, but perhaps a few more benches added along the trails, The ConnelI and Perservance are in terrible shape and need rebuiting in some areas. I would hate for the Ward Lake Area Trails to be over run by tourist and tour groups. The number of tours and tourist currently permited to use the Ward Creek is acceptable.
