Comments: I am writing to express my overwhelming support for the proposed seven-mile Redstone to McClure Pass Trail. This trail will provide a vital and treasured link between two points that otherwise are largely cut off to safe use by pedestrians and cyclists. Given the growth of outdoor recreation in our region, and the increase in traffic along our highways (including Hwy 133), it is projects like these that preserve and enhance the balance of nature, recreation and safety for all. Please act to approve this project!
