Title:

Comments: We used to love to ride our Road Bikes up and down McClure Pass. Now it's too dangerous because of texters and other distracted drivers.. We love mt. biking at Coal Basin nearby. We appreciate the sacred environment with fireflies, bats, orchids, and other fragile species nearby McClure Pass and vow to protect them. We'd support a bike path up and down McClure Pass as well as more trails in Coal Basin AND pledge to protect the environment. We can co-exist together.
